Professional Summary

Computer Science graduate with strong skills in Python, Machine Learning, SQL, Data Analysis, and Web Development. Experienced in building end-to-end ML applications.

Technical Skills

Python, C++, Java, SQL, HTML, CSS, JavaScript, Pandas, NumPy, Scikit-learn, TensorFlow, Git, GitHub

Education

B.Tech in Computer Science, XYZ University (2022-2026) | CGPA: 8.74

Projects

- ATS Resume Parser using NLP
 - Extract Name, Skills, Education, Experience.
- Heart Disease Prediction System
 - Logistic Regression + Streamlit.
- Customer Churn Prediction
 - Random Forest model.

Internship Experience

Machine Learning Intern | ABC Technologies

May 2025 - July 2025

- Developed ML models.
- Cleaned datasets.
- Feature engineering.
- Git collaboration.

Certifications

Python Programming, Machine Learning, SQL

Achievements

Hackathon Finalist | 300+ coding problems

Languages

English, Hindi
